The proof,
by being zero information,
doesn't specify the locations
for these towers

A caricature of a mad scientist with thinning grey hair and round glasses, wearing a purple academic robe over a white shirt. He is holding a glowing, swirling scroll over a furnace with three glowing circles. He has a determined and slightly manic expression. The background is a laboratory or workshop with wooden walls and various equipment.

Surprisingly, the complexity
of this optimization problem is
beyond even my capabilities

Grant me permission
to establish my
own university

In this intense crucible,
students will be part of a
grand human experiment

There I'll forge
a programming mind
surpassing
even my own

Yes, It's practically a prison
for torturing students

And so, with evident reluctance, the UN approved and established UPU,
Ultimate Programming University, granting it exceptional permissions.

UPU

ULTIMATE PROGRAMMING UNIVERSITY

Ten years have passed, UPU is now a well established university,
but the details of its creation are kept secret

This is Sorrento Bay, UPU Freshman city. A new academic year is starting

Can you believe it, Ricky?
Today we are starting UPU!

Can you believe it, Ricky?
Today we are starting UPU!

Our dreams of making
video games are about
to get real

Yeah, man. No more
high school drama

to get real

Yeah, man. No more
high school drama

Just coding, games, and
that sweet sweet campus life

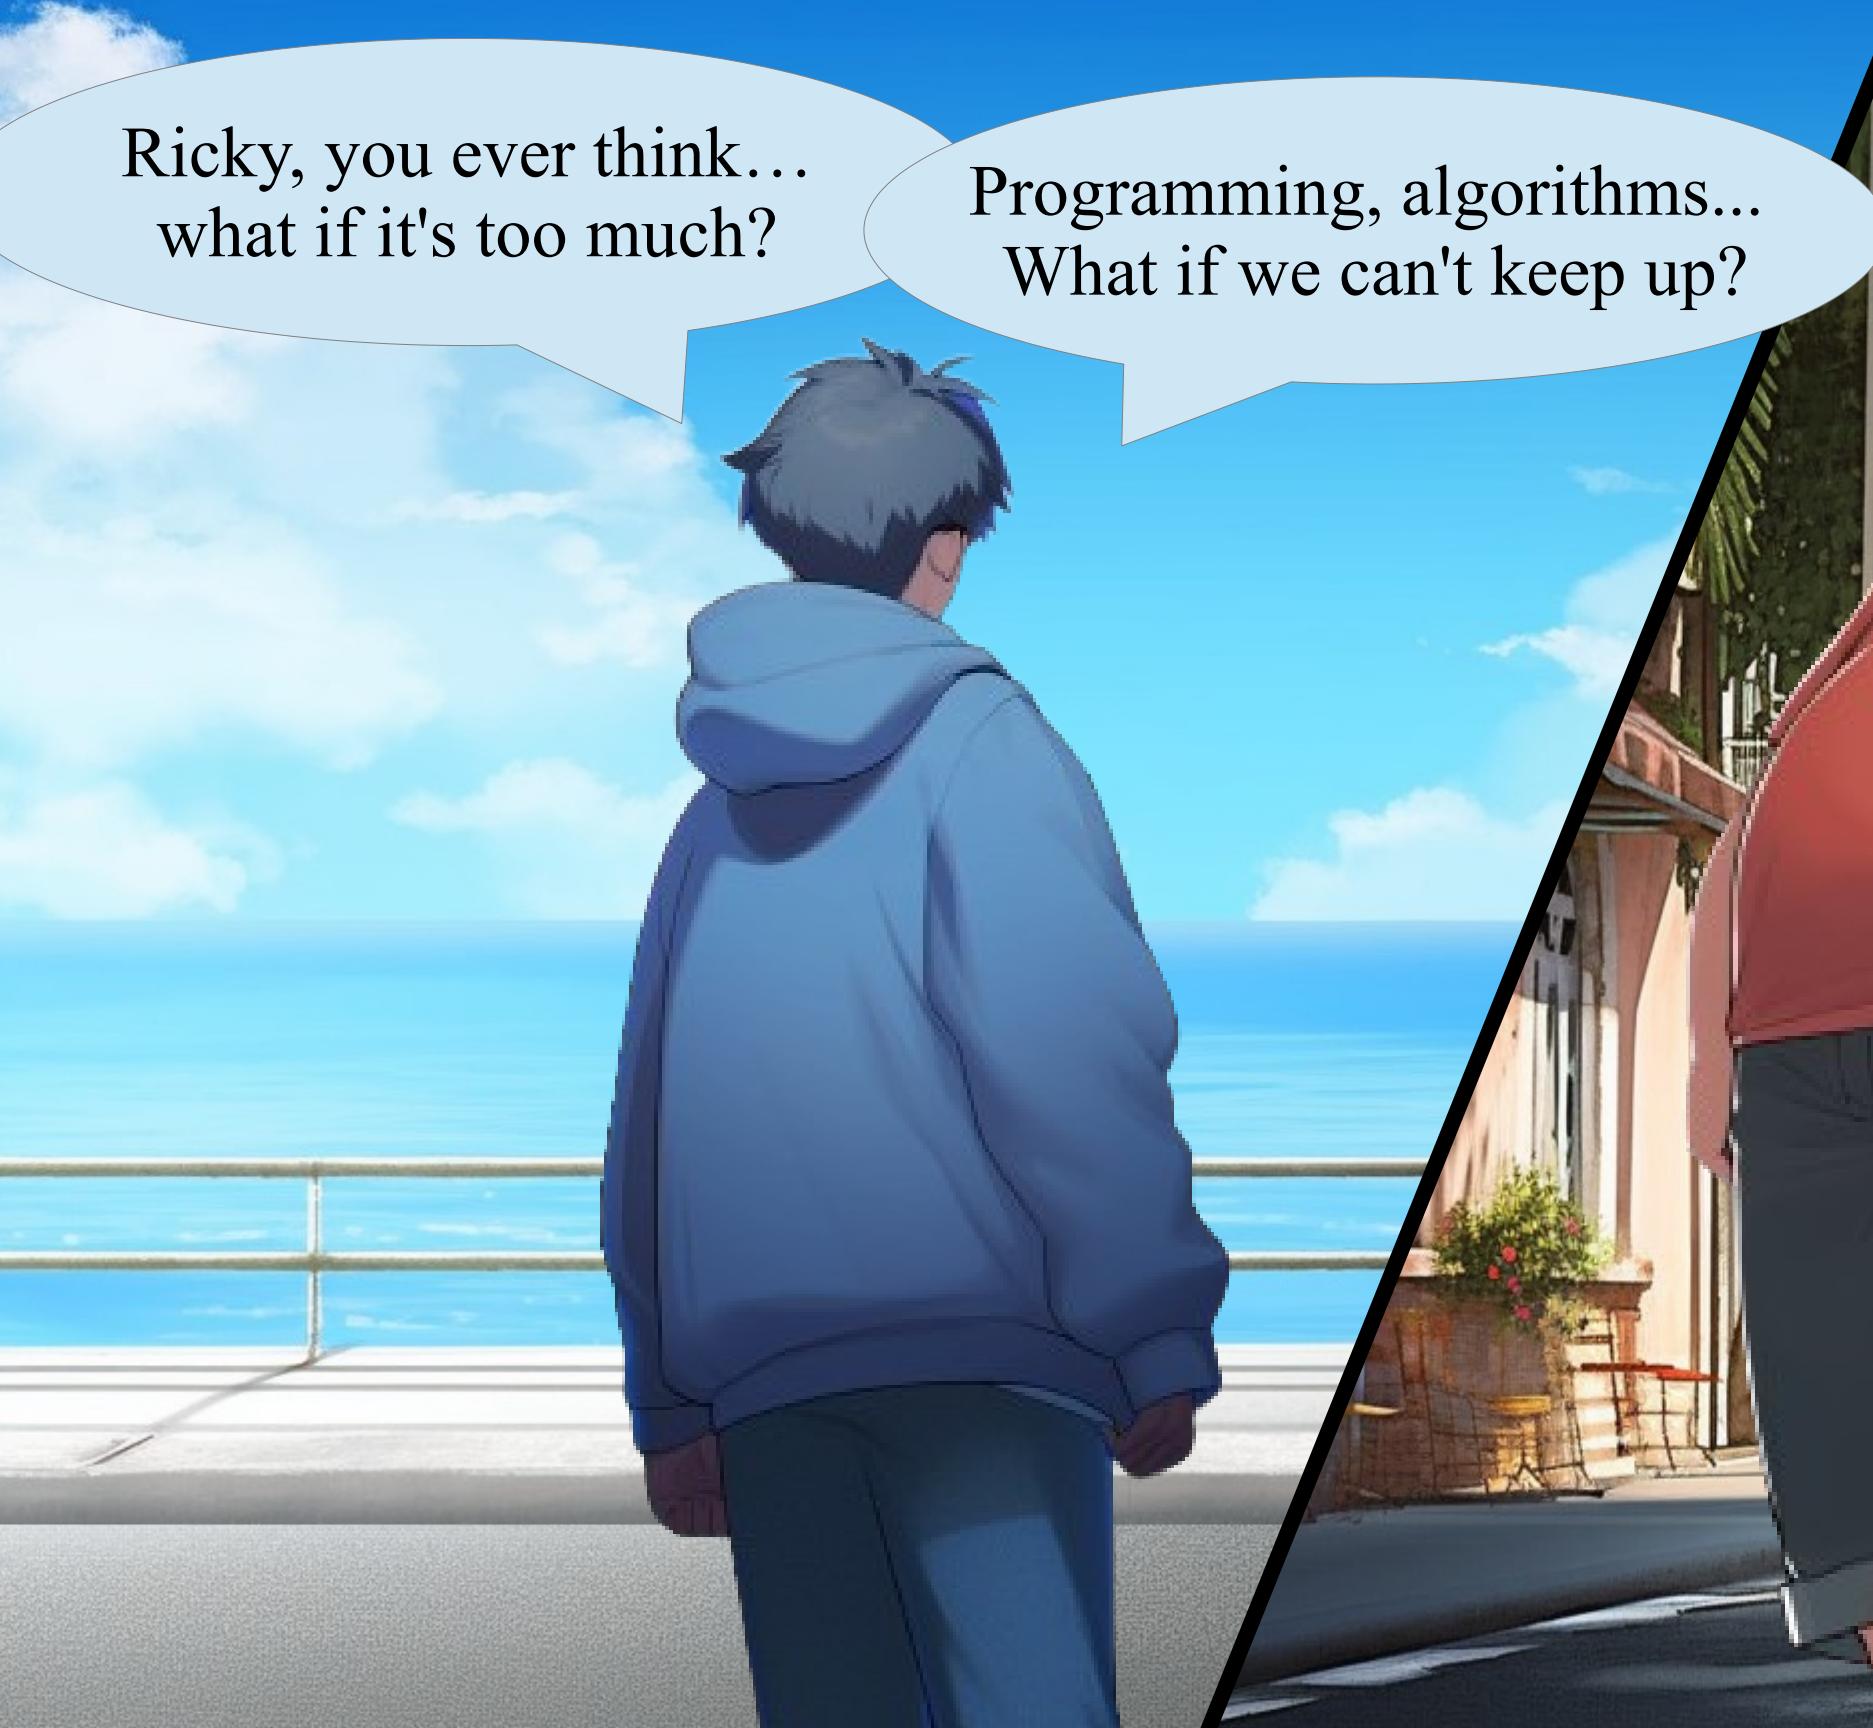

Ricky, you ever think...
what if it's too much?

Ricky, you ever think...
what if it's too much?

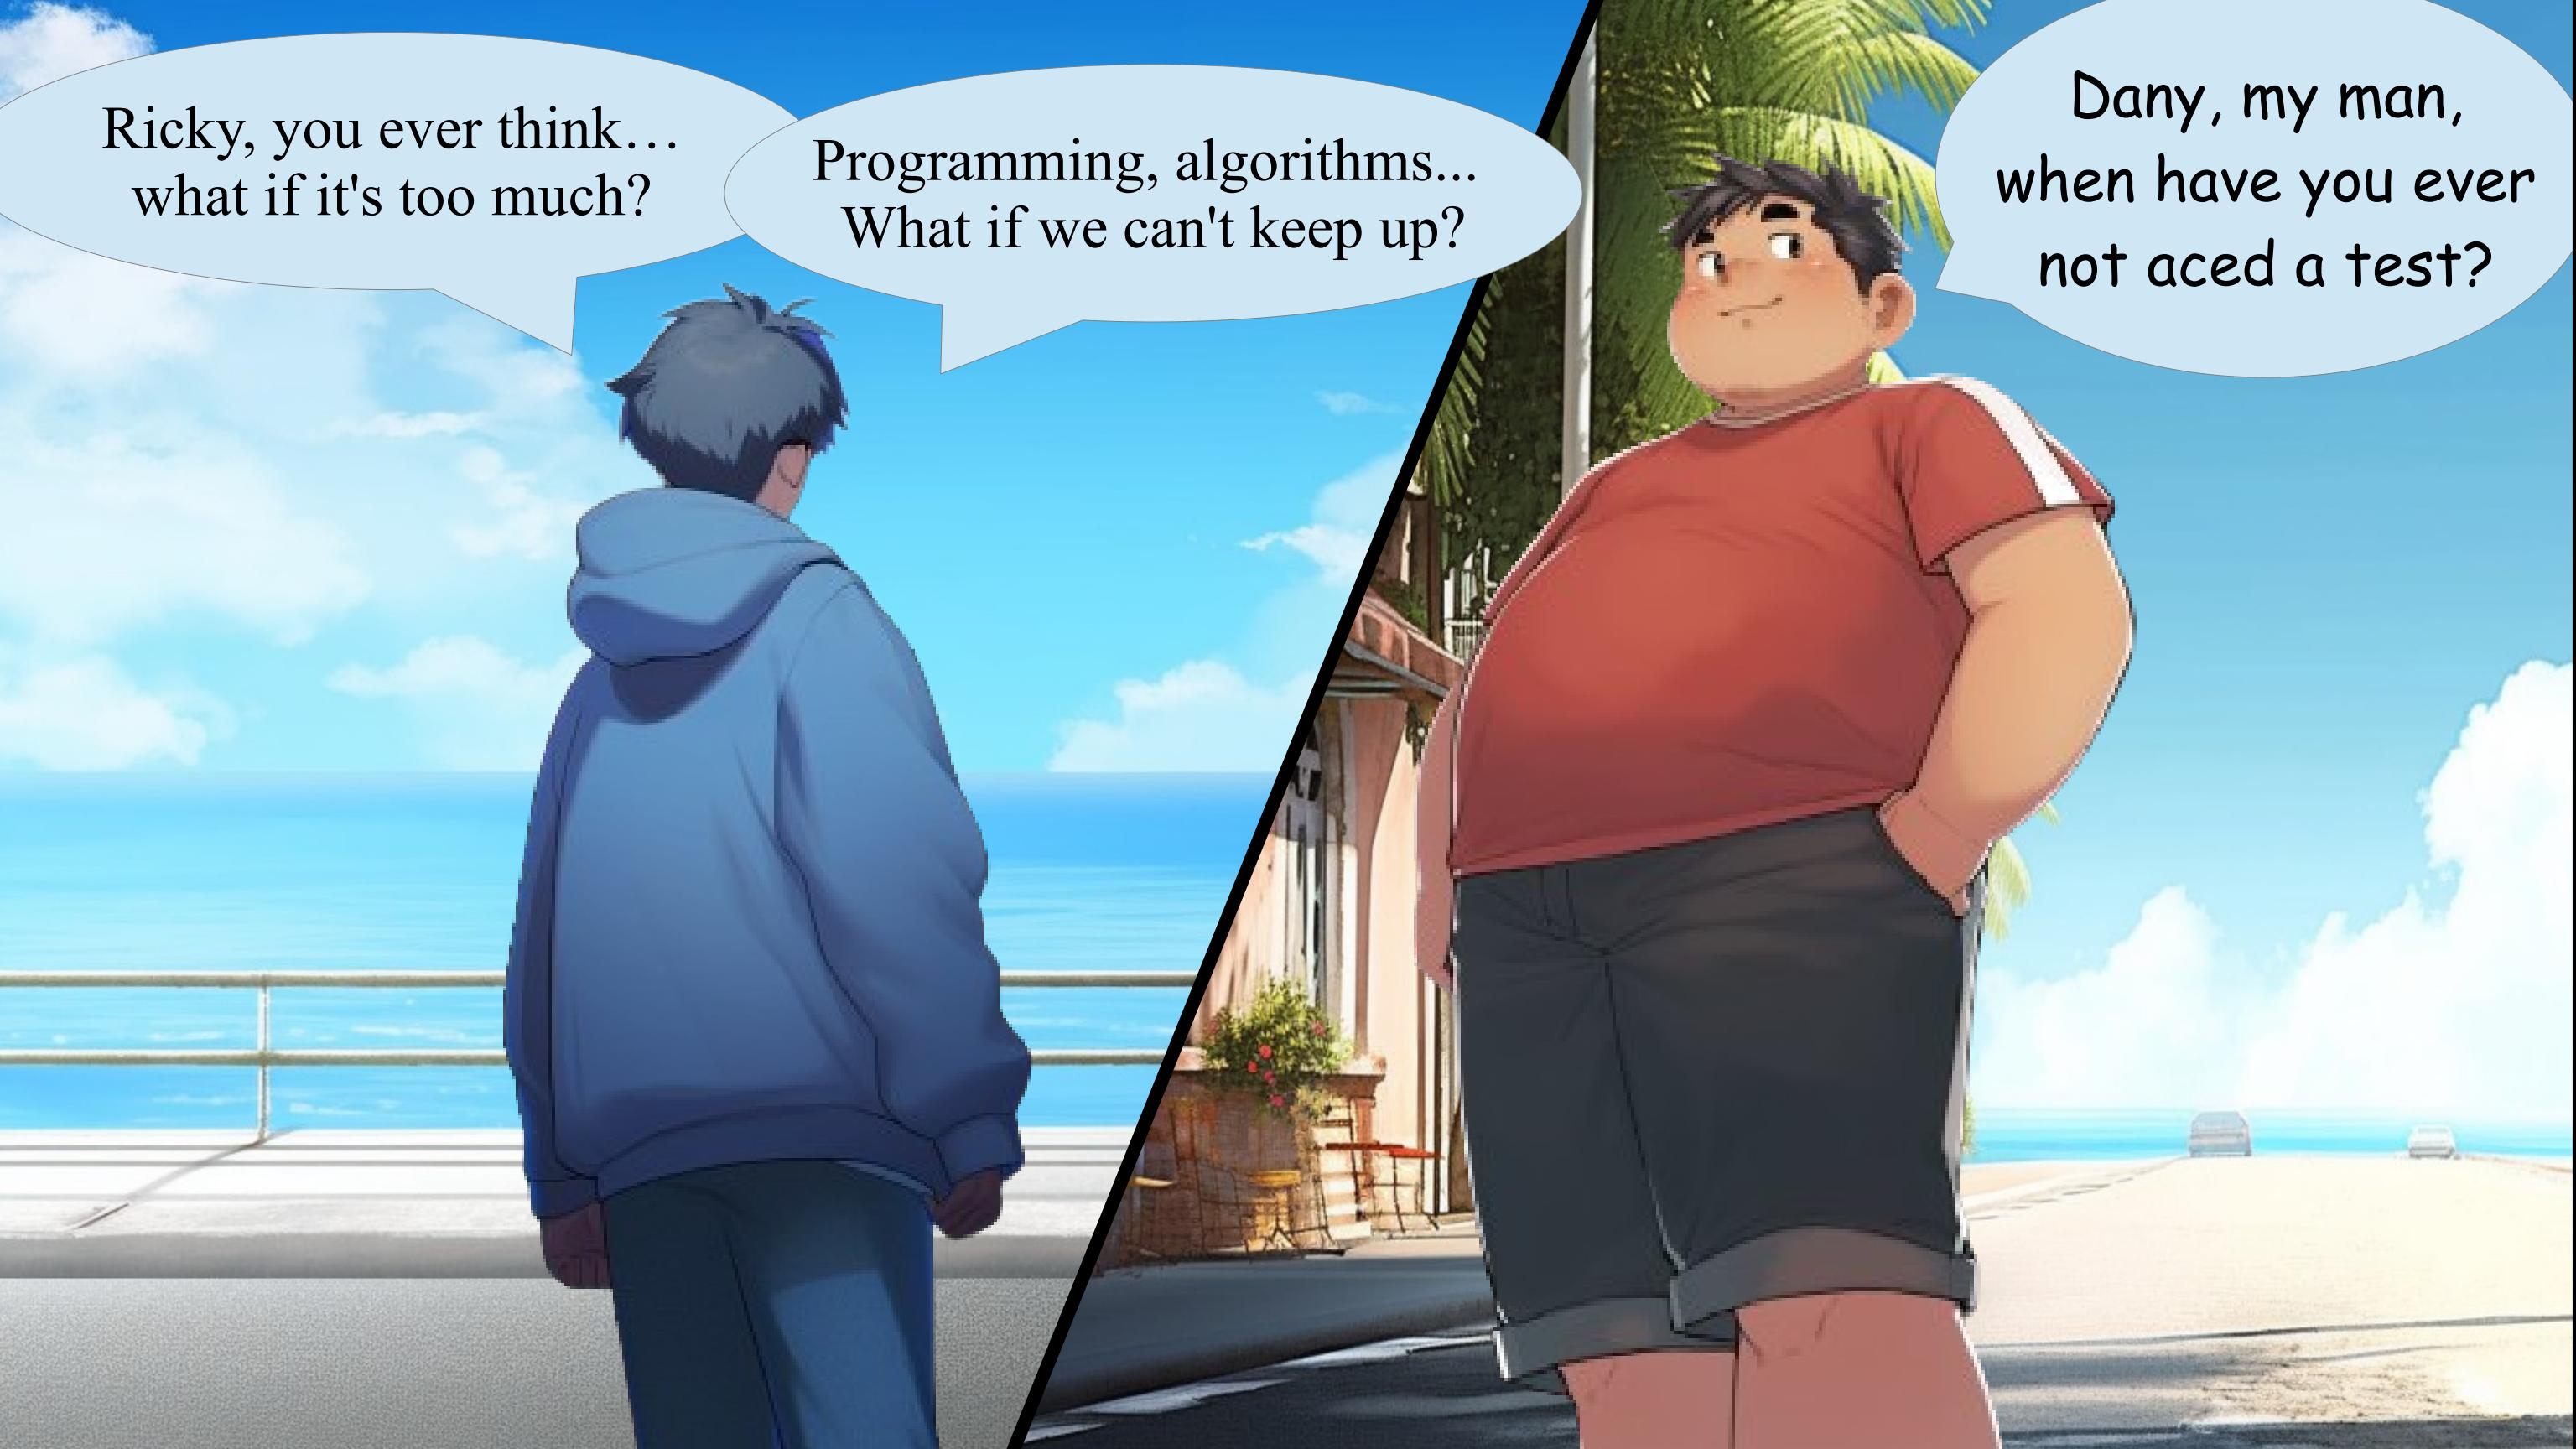

Programming, algorithms...
What if we can't keep up?

Dany, my man,
when have you ever
not aced a test?

Remember when you thought you'd
fail math, and you topped the class?

That was different.
University's a whole new level

And there's the social stuff,
the expectations!

Dude, we've got
each other's backs

marvel - a cup adorned with a hand in a thumbs-up gesture, resembling the letter 'i'.
marked with Mortis's unique fingerprint, signifies both personal achievement
and the impact of one's work on the programming world
